

## Turner's House in Twickenham

### Y12 & 13 Work Experience Placements

Turner's House offers 4-day work placements (Tues-Fri) for students at the end of Year 11 to Year 13 who have an interest in history, art and heritage and who aspire to pursue careers in this area. Work placement students will learn about the day-to-day running of an historic house, as well as the behind-the-scenes work that takes place in planning our public programme and caring for the house and the collection.

Turner's House, or Sandycombe Lodge was built by 1813 to the designs of the great landscape painter, JMW Turner as a retreat from the pressures of the London art world. Open to the public in July 2017 after an extensive restoration, Turner's House is committed to extending access to the house and engaging people with both the heritage of the site and the wider story of Turner and his relationship to the local area, which influenced many of his paintings, through a high quality programme of learning and participation for people of all ages.

To apply for a work placement, please fill in the form below.
